

1. Industries who saw the most growth:
 - a. Consumer Products & Services
 - b. IT Services
 - c. Health
 - d. Advertising & Marketing

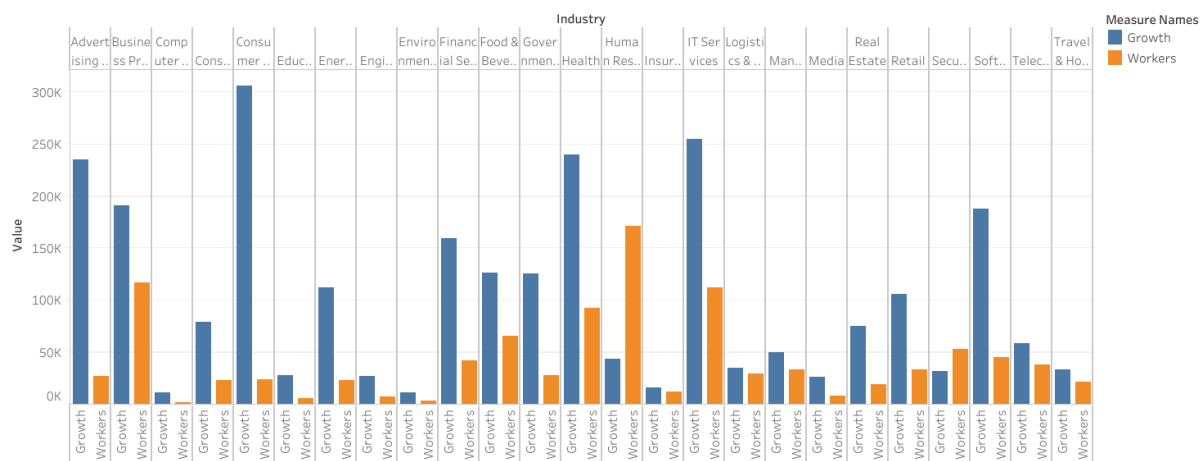

Industries vs. Growth

2. Yes, companies (industries are used in the graph because there are too many companies to fit in the graph) show a positive correlation between the years on the list and their rank.

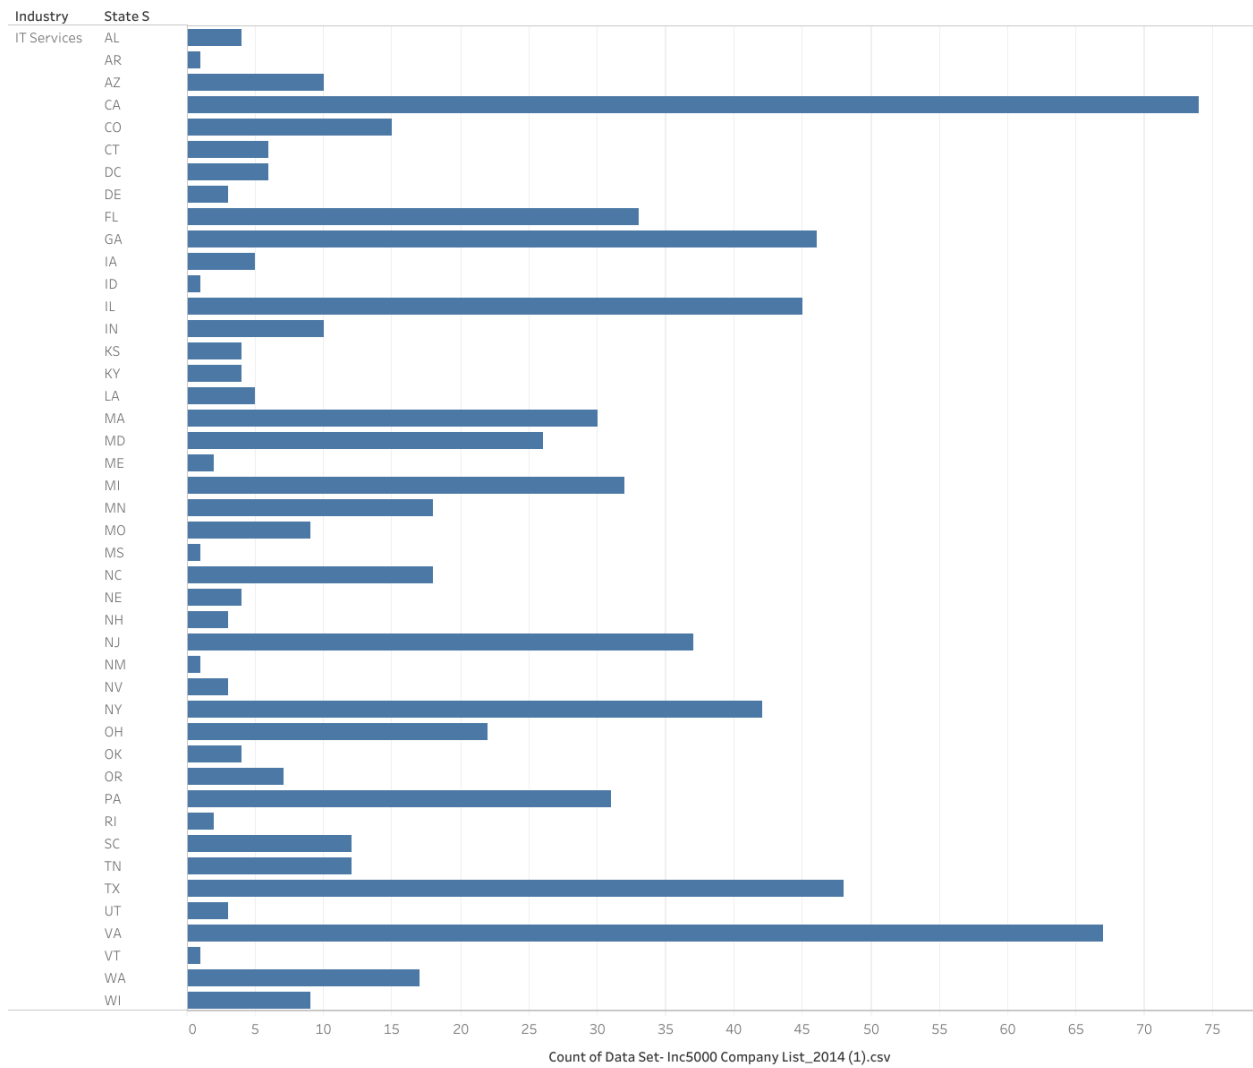

3. There is a weak relationship showing that the number of workers in the company may slightly affect the growth of the company.

4. States with the most IT companies:
 - a. CA
 - b. VA

- c. TX
- d. GA
- e. IL

5. Cities with the most growth
- a. El Segundo
 - b. New York
 - c. Arlington
